

Wednesday Challenge Form

Group Members: Paul, Connor

Problem Statement: everyone must cut a 1' by 1' cardboard square as
Accurately as possible

Approach: I grabbed a sheet of 8 ½ by 11 printer paper to use as my
Straightedge, I did this because I know that the paper has been cut to very strict
Dimensions to be used in very precise printers.

Solution:

Lessons Learned: Don't be stupid with box
knives
